

## Material Safety Data Sheet

---

Dear Customer,

This is in regards to a material safety data sheet (MSDS) for the Atoka Cranberries Inc. products.

Material Safety Data Sheets are required under the Occupational Safety and Health Act (OSHA) and corresponding state laws, for substances reflecting any of a broad spectrum of health and/or hazards.

Please be advised that following products manufactured by Atoka Cranberries Inc. do not pose any such hazards, thereby precluding the need for our issuing a material safety data sheet on these food products.

- Fresh Cranberries
- Bulk, Individually and Individually Sliced Frozen Cranberries
- Sweetened Dried Cranberries\*
- Pomace Cranberries
- Cranberries Seeds

\* This includes our regular Sweetened Dried Cranberries, Sweetened Dried Cranberry Bits, Sweetened Dried Cranberries Strips, Glycerated Sweetened Dried Cranberries and all Flavored Sweetened Dried Cranberry products.

If you have any question, please let me know

Sincerely,

Jean-François Sylvain
